

**Do you like wild flowers and wildlife?
Help us to record these in your
churchyard or cemetery.**

Our churchyards and cemeteries are often rich in wild flowers but they have not been recorded since 1984 when the Women's Institutes ran a nationwide survey.

Can you repeat this survey for us in 2017?

You can download a [Churchyard & Cemetery Flowers and Wildlife Survey Form](#) from the Warwickshire Wildlife Trust website. At the end of October either post to the **Warwickshire Biological Record Centre, Ecological Services, Warwickshire County Council, PO Box 43, Warwick, CV34 4SX**, or scan and email to wbrc@warwickshire.gov.uk.

**You could record butterflies at the same time,
using Butterfly Conservation's
[Churchyard Butterfly Monitoring](#) form**
