Neighbourhood Plan Update

There was a stall at the school fete on 20th June to publicise the plan and ask people to complete surveys. Copies of the survey had been distributed with the July

newsletters. The group is now pulling together the results of the survey.

PARKING AND TRAFFIC MATTERS

Parking by the junction of Blandford Way and Field Barn Road

Notes from the meeting with the WCC Road Safety Officer on 18th June had been circulated prior to the meeting. It was noted that a parking restriction has been applied for and this application is on the list to be considered by WCC in November. The type of restriction will be decided on if the application is successful.

School parking

The chairman had raised the issue of dangerous parking at the top of Styles Close with the headteacher at the school fete.

Additional traffic calming measures for Hampton on the Hill

Peter Gogerly, Chairman of HOTHRA, was invited to speak on this matter. He requested an independent traffic survey to establish the extent of the speeding in Hampton on the Hill, with a view to installing additional traffic calming measures such as: more visible signage, countdown signs to the 30 mph zone, speed humps, rumble strips or a speed cushion.

Average speed data taken from vehicles with a GPS device in had been provided by WCC but this does not show the number of vehicles that exceed the speed limit. WCC Cllr Caborn explained how the county council priorities are set for traffic calming and that these are based on average speeds; the proportion of drivers who speed would also need to be ascertained. A proper speed audit would have to be undertaken before the county council would put money into traffic calming measures. It was noted that the police had carried out speed checks in Hampton on the Hill in recent weeks.

The parish council agreed to commission two traffic surveys from Nationwide Data Collection for Hampton on the Hill, suggesting one on Old School Lane and one on Hampton Road. HOTHRA are to be involved in decisions about the siting of the counters, to ensure they have confidence in the

Warwickshire Trading Standards understands that the accomplices of doorstep rogue traders are returning to their victim's homes claiming to be from the Police or Trading Standards Service.

The fraudsters claim that they are 'investigating' the work carried out. The victims are asked to pay a fee which it is promised, will be returned when the investigation is complete!

A case involving a Leamington Spa resident has already been reported to the Police. The fraudsters claimed to be Trading Standards Officers before asking the consumer to withdraw £4,500., which he did and later handed over.

Trading Standards and the Police do not charge victims to carry out investigations.

Remember - Lock, Stop, Chain, Check

Lock: secure all your other outer doors as the person at the door may intend to distract you while an accomplice gets in through a back door

Stop: think about whether you're expecting anyone

Chain: put the door chain on or look through the window or spyhole to see who's there

Check: ask for an identity card and examine it carefully - you can always tell the caller to come back another time when someone will be with you. Always check a caller's identity by phoning a publicly listed telephone number, not any number they may give you.

Finally, remember that you can dial 999 if you're suspicious or the caller won't leave. ***Call the police non-emergency number 101 if you're not in immediate danger but want to report an incident.***

Can you help a family stay together?

Warwickshire Fostering Service is keen to find new parent and child assessment foster carer placements. Parents, particularly young mothers, who are unable to meet their child's most basic needs and protect them, sometimes need a nurturing family environment where they can be supported in looking after their baby or young child.

Parent and child foster placements may help a family to stay together and provide a positive alternative to residential care, which can be expensive and isolating. Potential foster carers provide both practical and emotional support to help the parent to develop the skills required to meet their own and their child's needs. Once the parent has successfully completed an assessment within their fostering placement, they are then supported to live independently with their child.

People who have had some childcare experience or have raised children of their own would be ideal foster carers for a parent and child due to the life skills involved in this type of fostering. Full training and support is given to foster carers, who are matched to one or more of the different foster care schemes, depending on what suits their lifestyles and commitments. Carers are paid an allowance which reflects the real cost of looking after a child.

The Parent and Child Assessment Arrangement project is currently looking to recruit 5 foster families who can meet the needs of these placements.
